INNOVATION LIVING™

The Danish sofa bed specialist established in 1971

Expand Your Living Space In Style

Space saving designs for your home

Innovation Living™ is a Danish sofa bed specialist built on the proud Danish tradition of furniture design. We believe that form and function must go hand in hand to create innovative, durable designs for everyday use. Since 1971 we have dedicated ourselves to the design and development of multifunctional sofa beds, and today we are proud to be able to call Innovation Living™ an internationally renowned sofa bed specialist.

A splash of color in a grey world

CARPE DIEM - Seize the day. Let's celebrate life with encouraging colors and patterns.

This collection is intended as inspiration, as an invitation to remember the playfulness and the cheerful, joie de vivre expression in our physical surroundings. It could be a piece of furniture with a colorful textile, or simply be colorful accents in the surroundings that set a different setting for a piece of grey furniture.

Per Weiss,
Chief Design Officer

Comfort is always at the center of our design process

A design's aesthetic expression will, to some extent, be decisive for the product's comfort. The elegant slim design will quite naturally tend to be firmer than the large bulky design.

Our design process centers around comfort, as we aim to deliver the best possible comfort with each design.

Revitalizing excess fabrics

The Patchwork Project is a collection of limited edition striped patchwork covers made from excess fabrics.

Each textile combination has a limited number of covers based on remaining stock of textile. Please visit our website to see the available covers.

The covers are detachable, washable, and interchangeable with any standard cover for Conlix or any Multifunctionals when worn, or if times call for a more understated cover.

Puri

Designed for Longevity

Design by Per Weiss 2021

Puri is our take on a design where every detail and material has been carefully evaluated and prioritized with sustainability in mind.

Puri has been designed for maintenance and long life cycle. The frame is made of a durable metal construction, and the covers are detachable, washable, and renewable. The OEKO-TEX® high resilient foam filling of the seats and cushion can also be replaced over time. Puri is designed for disassembly and recycling, and is flat packed to minimize transportation volume. The recommended fabrics are made from recycled fibers.

Bed size 80 x 195 cm | Matt black metal frame with a mattress made of OEKO-TEX® high resilient foam, see page 158 | One back cushion included | Table top in lacquered oak or lacquered walnut | Detachable and washable covers | Shown in 536 Bouclé Ochre | Shown fabrics: 2-4 weeks delivery time | Other fabric options with 6-8 weeks delivery time, see page 163 | Scan the QR code to see additional features at our website

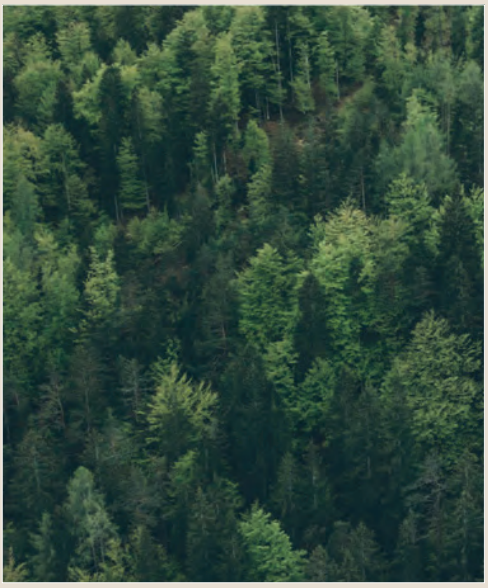
Environmental Considerations



Give back to nature
To contribute to the balance of the global ecosystem, Innovation Living plants more than 10.000 new trees every year to compensate for our consumption of wood.

Detachable covers
As it offer obvious benefits, a growing part of our collection comes with detachable and washable covers. The sofa is easy to maintain as covers can be machine washed at 30 degrees Celsius. Upholstery can be replaced if it is worn out, or if you want to freshen up your sofa. Instead of replacing the entire sofa, this will create a significantly smaller impact on the environment.

Products available with detachable covers:
Aslak, Balder, Colpus, Conlix, Conlix Patchwork, Fraction, Idun, Junus, Merga, Mimer, Minimum, Multifunctionals Patchwork, Narvi, Newilla, Newilla with lounger, Pascala, Pauke, Puri, Rollo, Soft Peak, Triangular, Trym and Yonata.

Look for this Icon:

Fabrics
As not all designs are suitable for removable covers, the durability of the fabric and ease of cleaning become crucial for the longevity of each design. All fabrics are highly durable and upgraded by adding backsides to strengthen them even further. All fabrics can withstand washing at 30 degrees Celsius, which means that products can withstand wet cleaning. Finally, most of our fabrics are OEKO-TEX® Standard 100 certified, signifying that they are free of harmful substances.

Recycled fabrics
The supply of fabrics made from recycled fibers is fortunately constantly increasing. More than 1/3 of our quality fabrics are made from recycled polyester which can for instance be recycled plastic bottles. Please look for Bouclé, Vivus and Argus fabrics - see page 163.

Lower CO_2 footprint
Since 1989, all our products have been designed for flat packing, which minimizes CO_2 emissions during transportation and storage. We continuously work to reduce the environmental impact of our activities, and you can read more about our specific initiatives on our website. Although we are not CO_2 neutral, we are committed to minimizing our CO_2 footprint.

Maintain and refresh
Designing for flat packing means creating a set of parts that easily combine into a full product. The complexity and number of parts vary from product to product, but the design strategy allows for easy replacement of components to prolong a product's life cycle - whether it is to replace a worn-out part or refresh product's appearance.

Disassembly and recycling
In our design process, we focus on the ability to disassemble our products and materials after their life cycle ends. We carefully consider which materials to use, how to combine them, and how to separate them into individual parts for recycling. Each design presents a unique challenge, and some are more suitable for disassembly than others, but the ECO-dimension is always an integral part of our design philosophy.

Durability | 5 years warranty
Quality and durability are at the center of our design and production process. We offer a 5 year warranty on all designs and a lifetime warranty on slats and gears for all sofa beds in our Multifunctionals category. For further information about our warranty, please visit our website.

Certified production facilities
We engage in the development of local communities to contribute to a better tomorrow in the areas we operate in. To ensure ongoing improvement, our production facilities undergo continuous audits to confirm that our group values and working conditions are upheld, as outlined by third-party standards such as the amfori BSCI Code of Conduct. In addition our production units are also FSC®-certified.

European Modernism

A selection of designs inspired by the revolutionary Bauhaus school's thoughts on how to create modern, functional quality furniture optimized for industrial production. The modernist furniture movement was largely driven by the enthusiasm for industrial processing of metal, and our range pays homage to this with signature metal legs.

Comfort

Pocket Spring

The individual pockets in these models ensure that pressure is applied to each individual spring for optimal support – in seating as well as sleeping position. The high resilient foam casing contributes to a breathable mattress while providing a soft top support.

The following models have this comfort:
Bragi, Conlix, Cosial, Eluma Deluxe Button, Ghia, Idun, Narvi, Nolis, Nordham, Pascala, Recast, Sigga X, Splitback, Sly, Sly Wood, Trym, Unfurl, Unfurl Lounger and Zeal.

Pocket Spring Dual

The Pocket Spring Dual comfort share the general composition of the Pocket Spring models apart from the extra layer of hyper soft foam that gives these sofa beds an extra soft feel. This extra layer of luxury provides a soft seating and sleeping comfort.

The following models have this comfort:
Cornila, Dublexo, Frode, Malloy, Malloy Wood, Osvald and Tripi.

Excess Pocket Spring

The higher coils in the Excess Pocket Spring models provide a softer sofa comfort. In combination with the core foam casing, the Excess mattress has higher absorption of pressure on each spring for a more comfortable sleep.

The following models have this comfort:
Bifrost D.E.L., Cassius D.E.L., Long Horn D.E.L., Pyxis D.E.L., Supremax D.E.L., Vogan, Vogan Lounger and Yonata.

No-zag and Pocket Spring

The combination of no-zag and pocket springs with a hyper soft foam on top create a unique softness in seating as well as sleeping position. The use of no-zag contributes to an extra layer of elasticity and allows the mattress to breathe.

The following models have this comfort:
Merga, Newilla and Newilla with lounger.

Bonell Spring

The Bonell Spring mattress is characterised by the use of strong, connected springs topped with a layer of high resilient foam. This spring type distributes the pressure from your body on a larger area to create an even, yet elastic support.

The following model has this comfort:
Vanadis.

Sigmund

Pocket Spring mattresses ensure that pressure is applied to each spring separately. The result is a mattress that supports individual parts of your body better. The springs are surrounded by layers of high resilient foam providing a soft top support – whether for playing, sitting, or sleeping. Pocket Split mattresses consist of two separate mattresses that can be used separate or in combination.

The following model has this comfort:

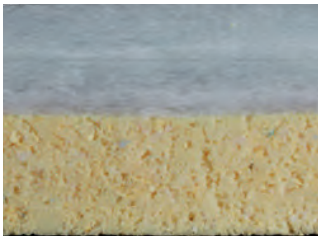
The mattresses:

Classic
Firmness rating: Firm
Mattress sizes: 120 / 140 x 200 cm.
Made from recycled foam, the Classic mattress is durable and provides a high degree of support for a comfortable sleep. Our high density foam provides strong motion isolation, making it easy to share the mattress. Choose our Classic mattress for a firm comfort.



Spring
Firmness rating: Soft
Mattress sizes: 120 / 140 x 200 cm.
The spring mattress is characterized by the soft comfort combined with effective pressure relief. Furthermore, the combination of fiberfill, a thin layer of foam, and the pocket springs ensure that the mattress is breathable and able to conduct moisture and heat away at night.

Soft Spring
Firmness rating: Extra soft
Mattress sizes: 120 / 140 x 200 cm.
The Soft Spring mattress offers a unique comfort achieved through the combination of pocket springs and the built in topper of hyper soft foam. Choose our Soft Spring mattress for an extra soft comfort.

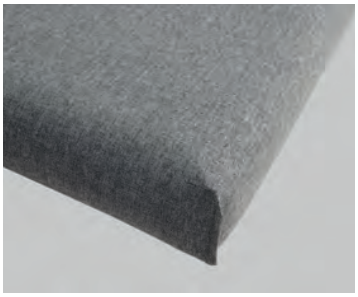
Latex
Firmness rating: Medium
Mattress size: 140 x 200 cm.
A breathable natural core of high quality OEKO-TEX® latex ensures a durable mattress that adjusts to your body. Latex sleeps cooler than foam and reacts instantly to your every move. As Latex is derived from a sustainable resource, it is the eco-friendly choice. Choose our Latex mattress for a medium comfort.

Non-detachable covers

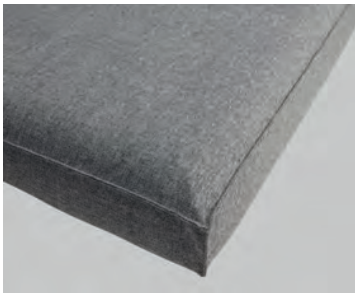
Nordic Mattress
This is the standard mattress look with pull downs. You decide the textile you like, and should you later happen to change your mind about style or color, you can choose between the two detachable cover options we offer.
Available for all mattresses on page 160.

Detachable covers

Nordic Cover
This cover has a sleek, rounded surface with stylings in each of the corners of the mattress. It covers up your entire mattress, giving you the option of choosing a different color. Should you want to change the look, simply buy a new cover instead of a new mattress. Available for all mattresses on page 160.

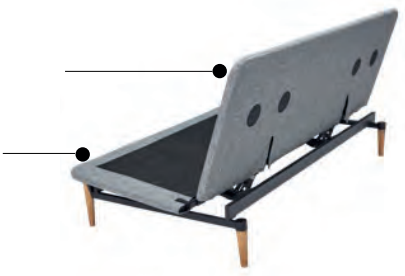


Sharp Plus Cover
This cover has a sleek surface with stylings across the edges of the mattress. It covers up your entire mattress, giving you the option of choosing a different color. Should you want to change the look, simply buy a new cover instead of a new mattress. Available for all mattresses on page 160.



Frame covers

A back frame cover is always included.
If you prefer the full cover look, a seat frame cover can be purchased.



Fabric Specifications

We place high value on ensuring that our fabrics all match the high quality of the design as well as durability of our sofa beds. All fabrics are enhanced with additional backing for extended life time and undergo rigid testing to meet the high standards we impose on our designs and production. In accordance with our Planet Promise we ensure that an increasing selection of fabrics are OEKO-TEX® certified.
